

HÜLLER HILLE

Solid. Precise. Customised.

HÜLLER HILLE has been making machining centres for heavy-duty machining for over 70 years.

Our employees know how precision works in the international market.

Placements for school and university students [m|f|d]

Don't yet know exactly what you want to do after school but looking for a job with prospects that is also enjoyable? Get a taste of mechanical engineering and see which career is right for you. Perhaps it will be an apprenticeship at HÜLLER HILLE.

You will only find out what you really enjoy if you try it. That is why we offer school and university students the opportunity to do voluntary and mandatory work placements with us. Want to dip your toe into the world of work or a particular job and find out more about HÜLLER HILLE as a place to train? The sky's the limit. You will gain insights into different fields of work and working contexts.

We offer placements in technical and commercial roles:

- ⊕ Mechatronics technicians
- ⊕ Industrial mechanics
- ⊕ Industrial management assistants
- ⊕ DHBW vocational dual students

Your placement with us

During your placement you will find out more about our company and the various activities and processes within the departments, depending on your chosen field. Right from the start there will be practical tasks which you can carry out independently under supervision. You will learn what matters by doing... in real, practical situations. We will be with you every step of the way, providing support where you need help.

Along the way you can also talk to our apprentices and employees to learn about their training and roles. Use the placement time well to see whether you can envision doing an apprenticeship at HÜLLER HILLE and to find out what opportunities we can offer for your future career.

We look forward to meeting you.
